

# SILENT CONFERENCE PRO MODEL HEADPHONES SPECIFICATIONS AND CAPABILITIES

**About Our Pro Model Headphone System:** Since 2009, SILENT CONFERENCE has enabled corporate events to amplify immersion, overcome language barriers, and deliver triumphant experiences. We have spent a decade engineering this exclusive wireless headphone system specifically for conference environments. Our unique equipment, and unmatched technical experience will help you overcome the specific challenges of these unique venues. By 2015, our system had already delivered over 5 million hours of audio directly to conference and meeting attendees.

## Our exclusive SCPro Headphones incorporate the features professional customers demand

- 30+ audio channels - why compromise on content?
- Headphones configured for your event - why risk interference?
- Industry leading HD audio quality - why listen to hums and buzzes?
- Customisable lights and logos - why not make it YOUR event?
- Expert staff to plan, adapt & execute events in complex RF environments - why rely on luck?
